

# Repair-Maintenance

1. Always pack devices well padded in a BOX! (Package must survive a fall from a height of approx. 1 meter without damage!) Never use a mailing bag nor envelope!
2. Enclose the completed „Repair-Maintenance“ form with the device.
3. Close the package carefully.

Safe transportation of your equipment is only possible if above mentioned points are observed. In the event of non-observance, no warranty can be given for damage or loss during transport. ROOS Dental GmbH & Co. KG cannot be held liable for damages or loss during transportation.
